

i am a happy and loyal customer of voom and I beleive that they should not be sold to echosta because then ther would be no competition .directv and dishnetwork are to me monoplies.consumers should have more thAN TWO SATTELITE PROVIDERS TO CHOOSE FROM.Voom has grest signal quality and hdtv service .they should not be allowed to be sold or shut down .I have a 6 month contract with them they would be breaking my contract and should have to pay ne a 250 dollar early termination fee.
