

Writing in regards to echostars acquisition of Rainbow 1 satellite from Voom. I would really like to continue receiving Voom. I hope that you will take into consideration Vooms commitment to Hi Definition television, which is unparalleled by any other company. Mr Dolan has expressed a desire to continue Voom, and I would hope that in the spirit of competition (which helps the public)you would reject the sale.

Thank you for your time.

Sincerely

Matthew Johnson a dedicated Voomer
