

I do not want to see Voom lose its Satellite for its DBS service. I signed up for the Voom service because for me they are the only provider that can offer current HD channels (TNTHD, TDCHD, UNIVERSAL, ESPN, HBO, Cinemax, Showtime, Stars). All my other options, Direct TV, Dish Network, and Adelphia only show fractions of this. Please do not let them sell the satellite. I will have no where to go without voom.
