

I would like to continue receiving VOOM programming. My experiences with VOOM have all been good ones, from the highly professional installation to their excellent customer support. As you know, there are few choices in Satellite TV, especially in the area of HDTV. VOOM offers exceptional service, exceptional programming and is doing a better job than any other company in this area. It is clear that in order to foster competition and consumer choice, VOOM should stay on the air.

Thanks for your consideration.

Tim Harrell
