

My family love's VOOM. We have spent thousands on our home theater and VOOM is the ONLY company committed to providing quality HD programming to it's customers. VOOM HD LLC wants to continue to provide it's customers with HD content via Rainbow-1 at 61.5 frequencies. Please provide them every opportunity to do so. VOOM provides competition in the satellite tv market. The FCC has ruled favorably to competition and consumer choice in the past, please do so again. Sincerely, Steven Benson
