Ref. Docket no. 03-133

Dear Chairman Powell:

As a member the Ladies Auxiliary Post 8437 in Enon, Ohio, I would like to express my concern regarding a recent proposal that have a significant impact on our military personnel and their families.

I am speaking of the proposal to impose new charges and access fees on pre-paid phone cards. Our Auxiliary has be collecting money for Operation Link which provides pre-paid calling cards for military personnel. Our Auxiliary believes this is an outstanding cause to contribute our time and efforts.

Phone cards are so very important for our military people to keep in touch with their families. How else can they find strength to continue fighting this war? The phone cards must be affordable means of communication for them. We would also like to see the money that we collect to be able to help as many soldiers as we possibly can.

We hope that as this war continues; the FCC would consider the impact the increase in these fees would have on those men and women protecting our nation. They need our support in every way.

Sincerely .
