

Today is Sunday April 10, 2005. There are blizzard conditions in Colorado. This would be considered an emergency situation. Many churches have canceled their Sunday services. There are shopping malls that are closed. The following TV News station is NOT captioning their broadcast. 9NEWS, 500 Speer Blvd., Denver, CO 80203. MAIN NUMBER 303.871.9999; Newsroom: 303.871.1499. I am filing a complaint against 9News because of this. They should be fined on this matter. I called and complained about the captioning, but they never turned it on. I think they should be fined for this.
