Dear The Federal Communications Commission,

This letter is being sent so that the FCC Chair knows that as a senior citizen any new or increased fees on my phone bill are a drain on my fixed income. It is the little extra fees and taxes that are causing seniors like my self to do what my grandfather said, "People ought to uprising." I am "uprising" and letting you know that I would like you to support the to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

I do not like canned letters so I've written my response to this sensitive issue for senior citizens. I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.
