Washington, D.C.

RE: WC Docket No. 05-65; SBC Communications Inc. and AT&T Corp.
Applications for Approval for Transfer of Control

Dear Ms. Dortch,

For nearly three decades, SBC has partnered with LULAC in working towards providing the communities we serve access to equal educational opportunities, as a pathway to quality of life and prosperity.

Today, countless examples of this continuing partnership exist in our communities and are a primary reason for the importance of the Latino community in the viability of this country. As a corporate partner, SBC has always strived to provide superior customer service to its customers and an open door policy to their needs and concerns. This is of paramount importance to LULAC and we value this business model.

AT&T has traveled along a similar path with LULAC in their long-standing relationship with our organization, and we take pride in the joint efforts, which have enhanced opportunities for underserved communities throughout the nation.

We believe a merger between SBC and AT&T will provide an enhanced service environment to all consumers and a longer-term entity, better positioned to deliver the products and economic opportunity necessary to the continued success of all the communities we serve.

Sincerely,

**Margaret Moran, Immediate Past State Director for Texas
National Vice-President for Women**
