Pam:

Thanks for having us in today and thanks to Narda and Jeremy for sitting in.

You asked whether N.E. Colorado had annual reporting requirements regarding the use of federal high-cost support and I could not recall specifically what those reporting requirements were.

The Colorado PUC staff does audit N.E. Colorado's use of support. Last year, the company submitted information to the staff describing its investments in its ETC service area. I have attached for your reference a copy of the commission staff's most recent report on use of high-cost support by N.E. Colorado Cellular. The discussion is on p. 12 of my copy.

I'll include a copy of this report as part of our ex parte filing.

If you believe this information is somehow relevant to service area redefinition, please let me know so we can discuss this matter further. I'm obviously interested if Colorado's decision to designate N.E. Colorado back in 2003 is going to become part of a service area redefinition proceeding.

Thanks again and talk to you soon.

David
