Amendment of 73.202 (b)) MB Docket No. _____
Table of Allotments)
FM Broadcast Stations)
(Bokchito, OK))

To: Office of the Secretary
Attn: Audio Division, Media Bureau

PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Charles Crawford respectfully petitions the FCC to institute a Rule Making proceeding to amend the FM Table of Allotments to add Channel 241A at Bokchito, Oklahoma.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 241A to Bokchito, Oklahoma as that community's first local FM service. Bokchito is an incorporated community with a population of 600 people. Bokchito has its own mayor, its own schools, volunteer fire department, police department, post office and a number of local churches. Bokchito is a community that is certainly deserving of local FM

service. The proposed channel 241A will provide additional diversity and an outlet for local self-expression to Bokchito residents and therefore is in the public interest.

In order for Channel 241A to be allotted at Bokchito, Oklahoma, the vacant allotment for Channel 241A at Clayton, Oklahoma will need to be replaced with Channel 263A. In order for 263A to be allocated to Clayton, Oklahoma, station KATT Channel 263C at Oklahoma City, Oklahoma must be reclassified to a C0. (See, Attachment A, Request to Reclassify statement). The proposed changes are as follows:

	<u>Present</u>	<u>Proposed</u>
Bokchito, OK		241A
Clayton, OK	241A	263A
Oklahoma City (KATT)	263C	263C0

Attached hereto is a channel study confirming that Channel 241A can be allocated to Bokchito, Oklahoma, consistent with the FCC's FM separation rules provided the necessary changes are made at Clayton and Oklahoma City. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment B) Also, please note that a prior filed channel 241A at Bokchito was dismissed by FCC letter on March 10, 2005. (See, Attachment C). Reference coordinates for Channel 241A at Bokchito, Oklahoma are:

33 55 00 N
96 06 00 W

In order for Channel 241A to be allocated to Bokchito, the vacant allotment for Channel 241A at Clayton, Oklahoma must be replaced with Channel 263A. Attached hereto is a channel study confirming that Channel 263A can be allocated to Clayton, Oklahoma, consistent with the FCC's FM separation rules provided station KATT, Channel 263C is reclassified to a C0. (See, Attachment D) Reference coordinates for Channel 263A at Clayton, Oklahoma are:

34 32 48 N
95 29 46 W

Should this petition be granted and Channel 241A is allotted to Bokchito, Oklahoma, Petitioner will apply for Channel 241A at Bokchito and after it is authorized, will promptly construct the new facility.

The factual information provided in these Comments is correct and true to the best of my knowledge.

Respectfully submitted,

Charles Crawford
4553 Bordeaux Ave.

(Request to Reclassify Statement for Station KATT,
Channel 263C/ Oklahoma City, OK)

Charles Crawford
4553 Bordeaux Ave.
Dallas, Texas 75205

Petition for Rule Making
FM Channel 241A
Bokchito, Oklahoma
April 27, 2005

Attachment A

Request to Reclassify
Station KATT(FM), Oklahoma City, Oklahoma
Pursuant to MM Docket 98-93

Radio Station KATT(FM), Oklahoma City, Oklahoma is licensed to Citadel Broadcasting Company, City Center West, 7201 W. Lake Mead Blvd., Suite 400, Las Vegas, Nevada 89128, (Facility ID 8797), FCC File No. BLH 19841105DA. The facility operates with a power of 100 kilowatts with center of radiation 363 meters height above average terrain. The above captioned Docket 98-93 provides the mechanism to automatically downgrade a Class C facility to Class C0 when a demand is made for the spectrum, as is the case here. Charles Crawford respectfully requests that the license of Radio Station KATT(FM) be modified to specify operation on FM Channel 263C0 instead of on FM Channel 263C in accordance with the above Docket which provides for such downgrades when a demand for the unused spectrum is made, as is the case here.

Charles Crawford, the proponent of Channel 241A Bokchito, Oklahoma, and the replacement channel for the vacant allotment at Clayton, Channel 263A, in accordance with the above Docket, formally requests that the Commission reclassify Radio Station KATT(FM) as a Class C0 facility. Charles Crawford certifies that no alternative channel is available for the service he proposes at Bokchito, Oklahoma, and no other replacement channel is available for Clayton, Oklahoma, as is proposed in the Petition for Rule Making. A copy of this Petition for Rule Making is being served on Citadel Broadcasting Company as is required in the above Docket.

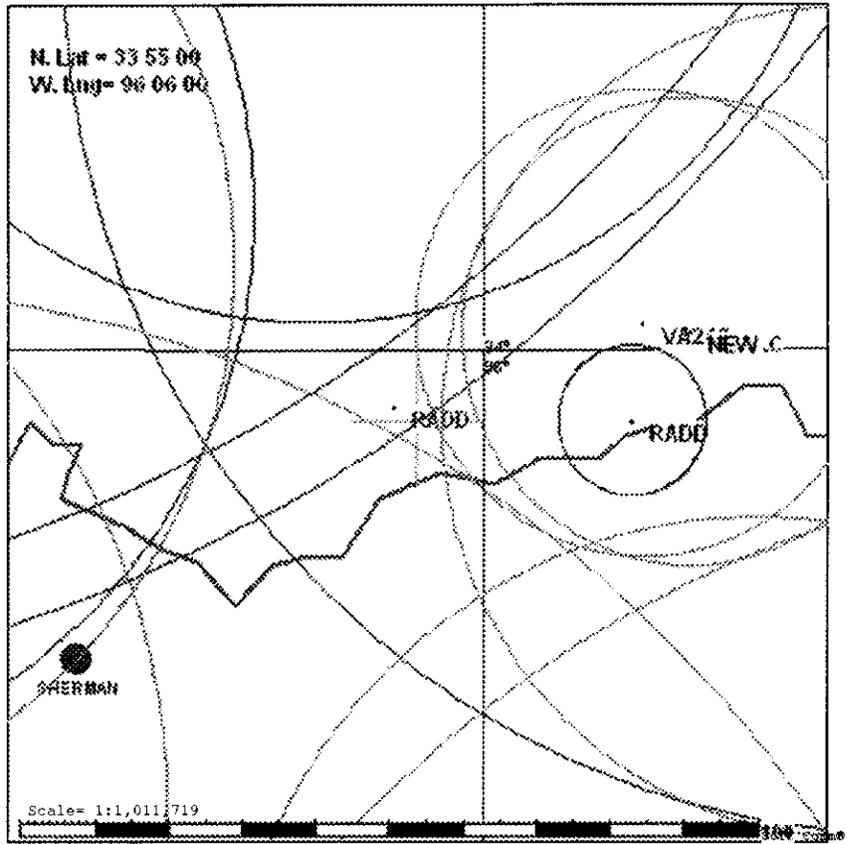

Charles Crawford

In re: RM-11031

Dear Mr. Crawford:

This letter is in reference to a petition for rule making you filed proposing the allotment of Channel 241A to Bokchito, Oklahoma, as its first local aural transmission service. In order to accommodate this allotment, you requested the reclassification of Station KXXY-FM, Channel 241C, Oklahoma City, Oklahoma and Station KATT-FM, Channel 263C, Oklahoma City, Oklahoma, to specify operation as Class C0 facilities.

In accordance to the *Second Report and Order* in MM Docket No. 98-93¹, and as set forth in Section 1.420(g), note 2, and Section 73.3574, note 4 of the Commission's rules, Stations KXXY-FM and KATT-FM are both subject to reclassification as a Class C0 facilities because the stations are operating below minimum Class C standards. As a result, an *Order to Show Cause* ("*Order*")² was issued on August 12, 2004 pursuant to the reclassification procedures set forth in Section 73.3573, note 4 of the Commission's Rules, which afforded the licensees an opportunity to show why their respective licenses should not be modified to a Class C0 facility. As such, Clear Channel Broadcasting Licenses, Inc. ("Clear Channel"), licensee of Station KXXY-FM filed comments in response to the *Order* stating its intention to file a minor change construction permit application to increase its antenna height above 451 meters HAAT. Clear Channel filed an acceptable construction permit application on November 4, 2004 to increase its antenna height above 451 meters HAAT³. Therefore, pursuant to Section 1.420(g), note 2 of the Commission's Rules, your petition proposing the allotment of Channel 241A to Bokchito, Oklahoma is hereby dismissed.

As noted in the *Order*, the present three-year construction period will be applicable under this reclassification procedure. If the construction is not completed as authorized, Station KXXY-FM is subject to reclassification automatically as a Class C0 station, and, in that event, a new petition for rule making to allot Channel 241A at Bokchito may be filed.

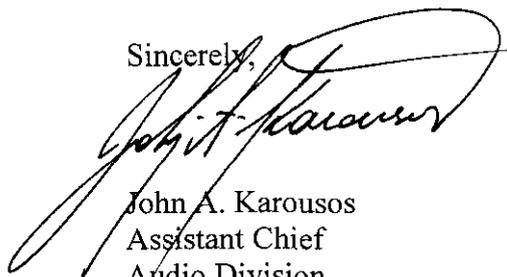

¹ See *1998 Biennial Regulatory Review – Streamlining of Radio Technical Rules in Parts 73 and 74 of the Commission's Rules*, 15 FCC Rcd 21649 (2000).

² *Reclassification of License of Station KXXY-FM, Oklahoma City, OK and KATT-FM, Oklahoma City, OK*, 19 FCC Rcd 15412 (MB 2004).

³ See BPH-20041104AQT.

In light of the above, we are returning your petition for rule making for Channel 241A at Bokchito, Oklahoma.

Sincerely,

A handwritten signature in black ink, appearing to read "John A. Karousos". The signature is written in a cursive style with a large, sweeping initial "J".

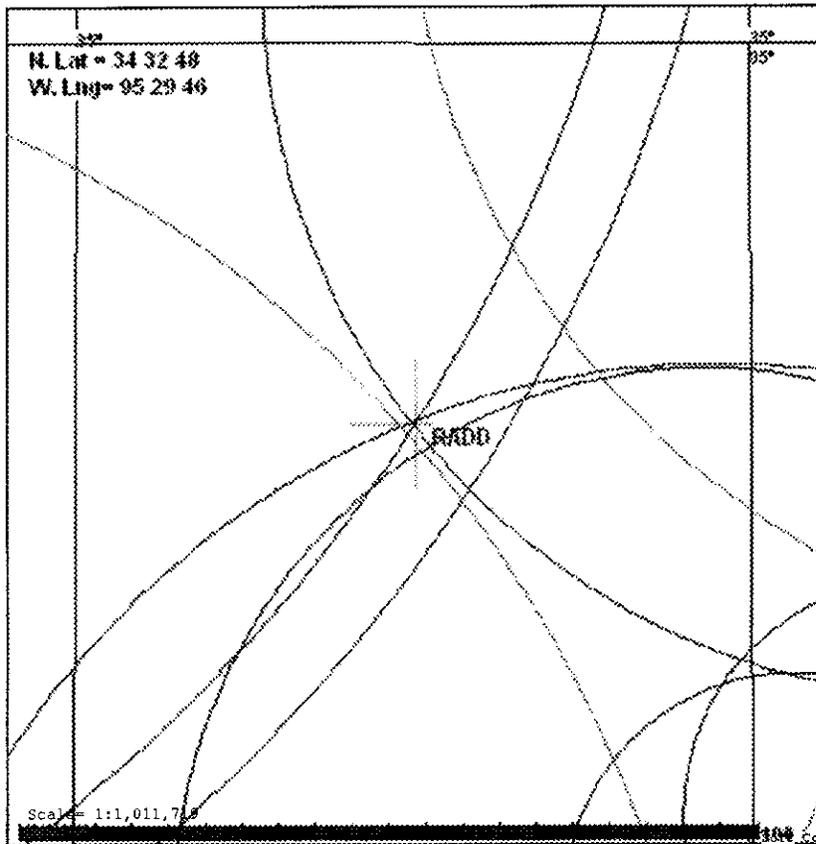

John A. Karousos
