May 16, 2005

Marlene H. Dortch, Esq.  
Secretary  
Federal Communications Commission  
445 Twelfth Street, SW  
Washington, DC 20554

**Re: *Ex Parte* Presentation  
WT Docket No. 02-55**

Dear Ms. Dortch:

On behalf of TMI Communications and Company, Limited Partnership (“TMI”) and TerreStar Networks Inc. (“TerreStar”) and pursuant to Section 1.1206(b)(2) of the Commission’s Rules, this letter is being filed to notify the Commission that on May 13, 2005, Gregory Staple and I of Vinson & Elkins (counsel for TMI), Henry Goldberg and Joseph Godles of Goldberg, Godles, Weiner & Wright (counsel for TerreStar) and Wharton (Zie) Rivers, President and CEO of TerreStar, met with the following members of the Commission’s staff: Michael Wilhelm, Brian Marengo and Roberto Mussenden of the Wireless Telecommunications Bureau and Geraldine Matise and Priya Shrinavasan of the Office of Engineering and Technology.

The purpose of the meeting was to discuss the comments filed by TMI and TerreStar in the above-referenced proceeding on May 6, 2005. Participants were given copies of the attached excerpts from the 2 GHz relocation website of Nextel Communications, Inc.

One copy of this letter is being filed electronically with the Commission pursuant to

Sections 1.49(f) and 1.1206(b)(2) of the Commission's Rules.

In the event there are questions concerning this matter, please contact me.

Very truly yours,

A handwritten signature in black ink, appearing to read "R. Edward Price". The signature is written in a cursive style with a prominent initial "R" and a long, sweeping underline.

R. Edward Price

Enclosure

cc (w/enc.): Joseph Godles, Esq.  
Henry Goldberg, Esq.  
Mr. Wharton Rivers

## About Relocation > Market Transition Lifecycle

Nextel will work with 2 GHz broadcasters to relocate them to the new spectrum plan set forth by the FCC. The relocation will involve a 9-step process designed to meet the needs of licensees and Nextel as well as the FCC's requirements. Explore the following links to discover detailed information about each of these steps.

- Create a local transition committee at the market level
- Prepare an initial self-inventory of equipment, services and other related items needed for the relocation.
- For the equipment needed, have a discussion with the equipment vendors and establish requirements for upgrade or replacement (i.e. will transmitter need to be replaced or can it be upgraded?).
- Develop your own relocation plan (i.e. get quotes for equipment, service providers, etc. to achieve relocation).
- Discuss this relocation with others in your market and with your local Society of Broadcast Engineers (SBE) coordinator.
- Watch for more information from your local SBE chapter and this web site.

^ Click on the timeline to view more details on each step of the cycle.

The relocation will involve a 9-step process designed to meet the needs of licensees and Nextel as well as the FCC's requirements. Explore the following links to discover detailed information about each of these steps.

- Individual broadcasters determine equipment and services required for relocation process and complete a self-inventory.

Requirements	Example Equipment & Services
Equipment list	Transmitters, receivers, encoder / modulators, decoder / demodulators, filters
Services list	Truck integrators, tower climbers, receive system configuration
Other	Tower structural assessments

- A Nextel broadcast engineer and a vendor representative will meet with the broadcaster to discuss the inventory and to schedule a time for the vendor to perform inventory review.

- Receive site reviews
