Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF).

With the war raging on, more and more things in the US are increasing in price and we really don't need this to happen to our taxes again. I urge you to look at this picture as a whole and not for just one area. We, as US citizens, need as much help that we can get since a lot of our homeland money is going overseas.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

Adopting the Fair Share Plan would be a large accomplishment for the lower to medium class society. Thank you, and best of luck in your new position.

Sincerely,

Elaine Wood P O Box 524 Summerton, SC 29148
