**RE: In the Matter of IP-enabled Services (WC Docket No. 04-36) and E911  
Requirements for IP-enabled Services**

Dear Ms. Dortch:

On May 4th, Jon Metzler of Rosum Corporation and James Green of Mercury Strategies, LLC, met with Tom Navin, Christi Shewman, Tim Stelzig and Julie Veach of the Wireline Competition Bureau, and Michelle Carey of Chairman Kevin Martin's office. The purpose of the meeting was to discuss Rosum's position location technology and its applicability to the geolocation of 9-1-1 calls made from Voice over Internet Protocol (VoIP) terminals.

During the meeting, the potential cost impact on VoIP customers and service providers, national rollout feasibility, and estimated time required to roll out a solution were also discussed.

Thank you for your attention. Should you have any questions, please do not hesitate to contact me.

Sincerely yours,

Jon Metzler
