

Indiana's Do Not Call list has helped us to avoid unwanted phone calls and unwanted interruptions. We are able to have family time without the worry of interrupting phone calls. We have been able to receive emergency phone calls since the lines are not tied up with the unwanted sales calls. Imagine that you are have dinner with family and friends. You are sitting down to eat and receive an unwanted sales call that interupts your quality time with family. It is frustrating and often times rude. It is difficult to return to the pleasant attmosphere once you are interupted. Protect the privacy that we all cherish.
