

Please leave the Do Not Call list alone. I don't want anybody calling me all hours of the day trying to sell me something. I have a radio, newspapers and get enough in the mail. I wish you would add surveyors to this list and don't let any banks or other financial institutes call. The police and fireman are enough. Them I will support. All the others I will hang up on because 90% of them are rude and won't take NO for an answer the first time!

Thank you for your time.
