

Joint Commission:

Our household has been pleased with Indiana's Telephone Privacy Law. We fully support this law. As citizens of this state, we feel we have the right to say "No" to businesses contacting us for their benefit. Business sales are a one-sided profit driven act to derive money and our time by perusing an uninterested public--those of us who we not want to be bothered by sales tactics in our homes--actually, we would like to reserve our periods to purchase goods and services, in or out of our homes, when we feel good and ready for them. We don't need businesses to tell us it's time to buy during our relaxation/family/private period. Do not call us at home when we have so little free time to our pursuits.
