

I am VERY opposed to the CBA's efforts to IMPOSE an "established business relationship" on me or my elderly parents without my being able to prevent it! Indiana's voluntary "do not call list" has served me and my 91 year old mother and 95 year old father from "constant harrassment" and I certainly do not want to see it weakened; rather, if anything, I want it strengthened! It certainly should be MY choice to be able to avoid receiving consumer marketing calls which I don't want to receive! Although just a regular citizen and not a constitutional free speech expert, I cannot imagine why this issue is even being considered. Should I be forced to listen to something I don't want to hear? I think not in the America where I live!

Thanks you for reading my message.
