Re: NBC Telemundo License Co.
WJAR-DT, Providence, Rhode Island, FID No. 50780
**EMERGENCY REQUEST TO MODIFY SPECIAL TEMPORARY
AUTHORITY TO OPERATE DIGITAL TELEVISION FACILITY**

Dear Madam Secretary:

NBC Telemundo License Co. ("NBC"), permittee of the above-referenced permitted digital television facility (the "Station"), hereby respectfully requests modification of the Station's existing Special Temporary Authority ("STA") for the Licensee to operate the Station with parameters at variance from its permitted facilities. See FCC File No. BPCDT-19991101ADG (the "Permit").

The proposed modification will significantly increase the digital service area of the Station without exceeding the contours authorized under the Permit and is necessary to maximize the Station's digital service area in light of the Commission's July 1, 2005 replication/maximization deadline.¹ The proposed modification also will completely encompass the Station's community of license with a quality signal, as well as serve the entire state of Rhode Island and the Station's DMA. Because the Station is prepared to go on air upon grant of the requested STA, we hereby request that this STA is granted on an emergency basis.

Attached is the technical information relevant to the proposed modification. This STA modification request is accompanied by an anti-drug act certification and a credit card payment for the requisite filing fee of \$150.00 as part of a completed FCC Form 159. We ask that you stamp the enclosed copy of this request and return it to our office as confirmation of filing.

¹ See Public Notice, DTV Channel Election Issues – Compliance with the July 1, 2005 Replication/Maximization Interference Protection Deadline; Stations Seeking Extension of the Deadline, DA 05-1636 (June 15, 2005). Although the proposed modification cannot result in 100 percent digital population replication because WJAR-DT cannot locate its digital antenna on the top of its tower before the end of the digital transition without disrupting analog service, the proposed modification will achieve replication of 108 percent of the station's projected analog service population and 92-plus percent of the Station's projected digital population.

The Secretary

ANTI-DRUG CERTIFICATE

I hereby certify that neither the applicant nor any party to this application is subject to a denial of Federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 853a.

F. William LeBeau
Assistant Secretary

Date: June 30, 2005

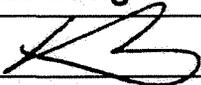

I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith. I acknowledge that all certifications and attached Exhibits are considered material representations. I hereby waive any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and request an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

WILLFUL FALSE STATEMENTS ON THIS FORM ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. CODE, TITLE 18, SECTION 1001), AND/OR REVOCATION OF ANY STATION LICENSE OR CONSTRUCTION PERMIT (U.S. CODE, TITLE 47, SECTION 312(a)(1)), AND/OR FORFEITURE (U.S. CODE, TITLE 47, SECTION 503).

SECTION III-D - DTV Engineering

Complete Questions 1-5 of the Certification Checklist and provide all data and information for the proposed facility, as requested in Technical Specifications, Items 1-13.

Certification Checklist: A correct answer of "Yes" to all of the questions below will ensure an expeditious grant of a construction permit. However, if the proposed facility is located within the Canadian or Mexican borders, coordination of the proposal under the appropriate treaties may be required prior to grant of the application. An answer of "No" will require additional evaluation of the applicable information in this form before a construction permit can be granted.

1. The proposed DTV facility complies with 47 C.F.R. Section 73.622 in the following respects:

- (a) It will operate on the DTV channel for this station as established in 47 C.F.R. Section 73.622. Yes No
- (b) It will operate from a transmitting antenna located within 5.0 km (3.1 miles) of the DTV reference site for this station as established in 47 C.F.R. Section 73.622. Yes No
- (c) It will operate with an effective radiated power (ERP) and antenna height above average terrain (HAAT) that do not exceed the DTV reference ERP and HAAT for this station as established in 47 C.F.R. Section 73.622. Yes No

2. The proposed facility will not have a significant environmental impact, including exposure of workers or the general public to levels of RF radiation exceeding the applicable health and safety guidelines, and therefore will not come within 47 C.F.R. Section 1.1307. Yes No

Applicant must **submit the Exhibit** called for in Item 13.

- 3. Pursuant to 47 C.F.R. Section 73.625, the DTV coverage contour of the proposed facility will encompass the allotted principal community. Yes No
- 4. The requirements of 47 C.F.R. Section 73.1030 regarding notification to radio astronomy installations, radio receiving installations and FCC monitoring stations have either been satisfied or are not applicable. Yes No
- 5. The antenna structure to be used by this facility has been registered by the Commission and will not require reregistration to support the proposed antenna, OR the FAA has previously determined that the proposed structure will not adversely effect safety in air navigation and this structure qualifies for later registration under the Commission's phased registration plan, OR the proposed installation on this structure does not require notification to the FAA pursuant to 47 C.F.R. Section 17.7. Yes No
