

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

I feel the FCC does not have the right to collect taxes of any kind for any type of communication service provided to WE THE PEOPLE.

Futher more I would suggest the FCC cease and desist charging taxes on all phone useage or internet useage of any kind as well.

My taxes already paid for the development of the internet, why does the government feel the have the right to charge me to use something I already paid for?

cc: Marlene Dortch, Secretary

Sincerely,

Mike Cyples
