

It's bad enough to have to put up with "listening" to everyone's conversation on cellphones on the streets, in grocery stores, etc. PLEASE don't allow this intrusion on everyone's privacy while on a peaceful trip on an airline. Some of us like to sleep or quietly read--NOT listen to everyone's conversation to family or clients. It's bad enough to have to put up with this as soon as we land. What ever happened to PRIVATE conversations?? Why is it people want everyone else around them to know their business?

PLEASE ALLOW US PEACE ON ALL AIRLINES.

Thank you!
