Re: Docket # 04-191, KALW-FM License Challenge

Dear Secretary,

As someone who has been aware of KALW-FM since the mid 1970s, I am very conscious of the extraordinary contribution this station makes to the community at large. Programming heard on KALW-FM cannot be heard on any other radio station in the SF Bay Area. The information and knowledge disseminated by this station is nothing short of remarkable, and because it is community based through its many local producers, it speaks to a wide diversity of listeners.

I want to add my voice to all those people who have written to you and for all those who have not, but are just as supportive of KALW FM.

Sincerely yours,

Michael Toms
