1 As described in the "Applications and Public Interest Statement" ("Public Interest Statement") submitted to the Commission on May 18, 2005, Comcast employs the "equivalent billing unit" approach to count subscribers. See Public Interest Statement at note 186.

It should also be noted that the subscriber numbers for Comcast include subscribers served by systems wholly owned by Comcast, but do not include subscribers served by certain other systems in which Comcast holds an attributable interest. As noted in the Public Interest Statement, Comcast will hold, in addition to its wholly owned systems, an attributable interest in certain partnerships and other entities which operate systems serving approximately 3.49 million subscribers. See Public Interest Statement at notes 186-87 and Exhibit Z. Comcast does not currently have access to the subscriber information that would enable it to break down these interests on a DMA by DMA basis.

2 Numbers are current as of April 30, 2005.

3 Comcast is still seeking to confirm whether certain subscribers listed in this chart as being acquired by Comcast should be properly assigned to the Tallahassee DMA.

4 Includes certain subscribers that may be located in the Ivankato, MN DMA.

5 Includes certain subscribers that may be located in the Gainesville, FL DMA.
