

Dear FCC1. Eliminate the Morse Code requirement as proposed, preferably before 2006.

2. When did Technician Plus creep back in to the proposed Section 97.507(2)? Why would Technician Plus be authorized, and not Technician?

3. In view of 2, I still think the Commission needs to do some work on going to a true 3 class system, with a low-power (10w or so), something along the lines of the current general, and something like the current extra. This could allow significant simplification of the rules, in combination with the upcoming 04-140 proceedings. But this can be dealt with later.

Sincerely,
Stan Young
