Power Radio)
Service)

My name is Steve Lawlor, and I strongly support any actions the Federal Communications Commission can take to expand and support the Low Power FM radio service.

To try and get an alternative voice in the mainstream news media these days, I would argue, is impossible. Low power radio is our only and last hope. Social strides can only come from a grassroots level, this is the medium for change. Maybe this is the last thing the elite in this country want and probably the very reason it will not happen. In spite of this please support low power radio.
