

We are opposed to the reconsideration of letting any outside states to call us on our "private home phone". When we chose to be put on the Indiana's No Call List, it is clearly evident that we do not wish to get calls from neighboring states as well. Please do not allow other states to call those who are on the Indiana's No Call List. We like our privacy, and the time that we can spend with our family without soliciting phone calls. Thank you!
