Re: MB Docket Number 05-192

Dear Chairman Martin and Commissioners Abernathy, Copps, and Adelstein:

As one of the few Hispanic American owners in the United States of independent, full power TV stations that broadcast full time in Spanish, I want to strongly support the proposed joint acquisition of Adelphia cable systems by Comcast Corporation and Time Warner. Based on my stations' relationships with Comcast over the past several years, I have nothing but admiration and respect for Comcast.

With each of my stations in the Miami-Ft. Lauderdale DMA, I have found Comcast to be the most responsive cable company in the DMA. Comcast was initially very receptive to carriage of my local programming, which was responsive to the majority Cuban-American community. Then, when we proposed to program my second full power TV station to meet the needs of the other Hispanics minority groups and other communities in the diverse Miami DMA, Comcast understood the needs to be served and was both supportive and innovative. Indeed, I believe that Comcast's unique responsiveness to its customers' needs is largely explained by its responsible employment of a knowledgeable, bilingual management team to lead its operations and its substantial (143.5 million dollar) investment in its equipment upgrade. It is no surprise that Comcast's customers in South Florida now receive the highest quality service and the fullest array of communications offerings.

My personal experience with Comcast gives me unqualified confidence that the proposed acquisition of Adelphia would greatly benefit consumers as well as their communities generally. I most strongly support the proposed acquisition and urge the FCC to grant it promptly.

Sincerely,

William C. De La Pena, MD
