

My name is Peter Moran. I'm a live sound technician at two all-ages venues in Los Angeles. Working at all-ages venues, I understand how important it is for young people (and the larger community) to have a public space to exchange ideas.

In the same spirit, I'd first like to thank the FCC for opening up the 3650-3700MHz band to the public. I ask that you please keep it open for public usage. Radio is a great way to increase civic participation. Having that band open in all likelihood, will increase the demand for electronic equipment necessary to tune in, which could create a lot of business.

Yours,

Peter
