Re: In the Matter of SBC Communications Inc. and AT&T Corp. Transfer of
Control Applications – WC Docket No. 05-65

Dear Ms. Dortch:

Yesterday, Theodore Frank and I of Arnold & Porter LLP participated in a conference call on behalf of SBC with Mark Uretsky and Marilyn Simon of the International Bureau. During the conference call, we explained that the response to Specification 21.d in the Response of SBC Communications Inc. to Information and Document Request Dated April 18, 2005 inadvertently contained an incorrect sentence regarding the re-routing by Wiltel of SBC Long Distance, LLC (“SBC-LD”) international traffic to Sprint or MCI. The response, as corrected, follows:

All SBC-LD international long distance traffic is routed to Wiltel. SNET routes its international traffic to Wiltel, Sprint and Teleglobe. During 2004, approximately [REDACTED] was routed to Wiltel, [REDACTED] to Sprint and [REDACTED] to Teleglobe. For the first quarter of 2005, the allocation was [REDACTED], respectively.

Other than deleting the errant sentence, we have not changed this response from the original.

In addition, we discussed how the volume of SBC-LD’s international traffic, as reported in its annual filings pursuant to 47 C.F.R. § 43.61, increased as SBC progressively received Section 271 relief in its states.
