

I am a Continental Airlines frequent flyer and member of its Presidents Club. I support Continental's Petition to the FCC. I want Continental to be able to continue to provide its own wireless service to me and other members at Boston Logan and other airports, which is a free service. I rely on Continental's seamless service wherever I fly. Continental should be allowed to operate their leased space with services that they wish to provide their customers and were originally deemed acceptable by the landlord. If the landlord has now found a more lucrative solution for themselves, that is just sour apples and it would also limit my choices as a private consumer. Thank you for ensuring the right of the public to use the wireless service of its choice.
