

I am a Continental Airlines frequent flyer and member of its Presidents Club. I support Continental's Petition to the FCC. I want Continental to be able to continue to provide its own wireless service to me and other members at Boston Logan and other airports, which is a free service. I rely on Continental's seamless service wherever I fly.

It is outrageous that Massport would prevent a free service that does not interfere with any other wireless services so it can charge me to use public airwaves. Please do not let them do so, it will be a terrible precedent that will result in the shut down of free wireless internet in many venues.

Thank you for ensuring the right of the public to use the wireless service of its choice.
