

As a member of Continental's Presidents' Club for over 10 years, I find it absurd that Massport is attempting to curtail FREE speech at Continental's Airline's club at Logan airport by attempting to require Continental to use Massport's vendor for wireless internet services. Having visited Boston recently, I was amazed at the level of taxation in that city. This particular "tax" is clearly without representation, given that I am not a resident nor is Continental's senior management. Thanks for the opportunity to provide input on this important matter.
