

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

The Universal Service Fund fee / tax should be rescinded. It is only fair, right and just that every person or entity pay for his / her / its services. The US government should not be involved in any way in paying for individuals or other entities for internet access or other services.

The Universal Service Fund proposal is unfair. I urge you to oppose any Universal Service Fund plan. I am one of the millions of consumers that will be unfairly taxed.

I monitor this issue on the website of the Keep USF Fair Coalition. Stopping the Universal Service Fund fee tax is important to my family - not to mention my pocket book. You will hear from me again, until this issue is resolved fairly! The fee is unfair, and un-American.

Under any Universal Service Fund fee proposal people who make long distance calls would pay money that would be redistributed through the US government to help pay other persons or entities access to the internet. In other words, low-volume and primarily residential customers would pay money to the universal service fund. I urge you to reject any Universal Service Fund fees proposals.

Thank you.
Zoltan Barabas
