

I agree that the Code Requirement should be drop. BUT ONCE AGAIN THE FCC IS TAKING THE EASY WAY OUT.

What ever happened to LICENSING RESTSUCTURING they sure messed that one up the first time, and now hear we go again with them taking NO course to LICENSING RESTRUCTURING.

I AGREE WITH THE PROPOSAL THAT THE ARRL HAD SUBMITTED FOR LICENSING RESTRUCTURING.

The Countries that have droped the Morse requirement HAVE GIVEN SOME or if NOT FULL HF PRIVILEGES TO ALL THEIR LICENSEES, WHY can't the FCC do the same here in the U.S.A. NO there is so much redtape just to get things do, and takes months and years to do, while in other Countries they just drop the CODE REQUIREMENT AND GIVE FULL UPGRADES OR AT LEAST SOME MORE HF PRIVILEGES TO THIER LICENSEES. NOT HERE IN THE GOOD OLD U.S.A.

Give some more HF Phone privileges to the Novice, NO-Code Tech, and Tech-Plus Operators. No they again take the easy way out and just propose to drop the Code Requirement without any LICENSING RESTRUCTURING for the FUTURE OF AMATUER RADIO.

I'am a Tech-Plus, I had a hard time learning Code, using all kinds of tapes and computer programs. Until I got a program that used word association with the code sounds. This realy helped me. I ONLY LEARNED THE CODE TO PASS THE CODE TEST.

I HAVE NEVER LIKED CW AND HAVE NEVER OPERATED CW AND NEVER WILL !!!

There are those that say if the CW Requirement is droped Amatuer Radio will be like CB Radio. I say it is the Operator, if you take pride and enjoy your hobby of Amatuer Radio you will not Operate like a CBer while on Amatuer Radio.

So drop the CODE Requirement and do some LICENSING RESTRUCTURING AND GIVE THE NOVICE, NO-CODE TECH, and TECH-PLUS OPERATORS SOME MORE HF PRIVILEGES, YOU SURELY SCREWED THEM OVER THE FIRST TIME AROUND and HELP THE FURTURE OF AMATUER RADIO.
