Re: Verizon Communications Inc. and MCI, Inc., Applications for Approval of Transfer of Control, WC Docket No. 05-75

This errata provides a few corrections and clarifications to some of the material that Verizon and MCI previously submitted.

1. Attached are revised versions of exhibits 5.A.2, 5.A.3, 5.A.5 and 5.A.6 to Verizon's response to the Commission's May 5, 2005 initial information and document request. The revisions made to these exhibits are de minimis. The largest revision – the removal of revenues and units attributable to VADI that were reported under as ESG revenues – involves no more than one quarter of 1 percent of reported revenues. A second revision – the restatement of FMS DS3 units in New Jersey in 1Q05 – involves an even smaller percentage of total special access units. The other change merely combines revenues and units for the New York-North New Jersey MSA. These totals were correctly reported in the original exhibits, but were inadvertently divided between two separate entries for that single MSA.

2. The fourth sentence of paragraph 8 of the Kende Reply Declaration should be changed to read as follows:

Based on this traffic study, I calculate that MCI had [CONFIDENTIAL BEGINS] [CONFIDENTIAL ENDS] petabytes per month of incoming traffic in April 2005 using the RHK methodology.

3. References to small business customers in the last sentence of paragraph 22 of the Huyard Declaration should be changed to lines.
