Creation of a Low) MB Docket No. 99-25
Power Radio)
Service)

Please open up more LPFM space on the FM frequency band in every area of the country. Specifically, in Eugene, OR our application and appeal for LPFM was denied in the last application round. Yet even with listening access to six public radio stations, Eugene has limited local programming, even though that was the original mission of public broadcasting. A LPFM station in Eugene would at minimum address getting local issues and local voices on the air.

Thank you.
