**LineSider Communications, Inc.,
Subscriber Acknowledgement Report September 22, 2005
FCC WC Docket No. 05-196**

- 1. A detailed explanation regarding current compliance with the notice and warning sticker requirements if the provider did not notify and issue warning stickers or labels to 100% of its subscribers by the July 29, 2005 deadline. Providers expected to update this information include those that were in the process of providing notice and/or stickers to their subscribers, but had not completed the process by July 29, 2005.**

As of July 29, 2005 LineSider has provided the notice and warning labels required by the Commission's VoIP E911 rules.

- 2. A quantification of the percentage of the provider's subscribers that have submitted affirmative acknowledgements as of the date of the September 22, 2005 report, and an estimation of the percentage of subscribers from whom the provider does not expect to receive an acknowledgement by September 28, 2005.**

As of September 22, 2005, LineSider has received an affirmative acknowledgement from 90% of its subscribers. Based on telephone communications with subscribers to date, LineSider estimates that it will have received an affirmative acknowledgement from nearly all of its subscribers by September 28, 2005.

- 3. A detailed description of any and all actions the provider plans to take towards any of its subscribers that do not affirmatively acknowledge having received and understood the advisory.**

LineSider has previously notified its subscribers that had not previously responded that their service would be discontinued at 12:01 am on August 30, 2005. LineSider will again notify those subscribers that have still not responded that service will be discontinued at 12:01 am on September 29, 2005 unless LineSider has received the affirmative acknowledgement by September 28, 2005. It is LineSider's desire to discontinue only non-911 services to its subscribers as described below and is exploring the technical issues related to this "soft" disconnect.

- 4. A detailed description of any and all plans to use a "soft" or "warm" disconnect (or similar) procedure for subscribers that fail to provide an affirmative acknowledgement by September 28, 2005. A provider's September 1 and September 22 reports must include either a statement that the provider will use a "soft" or "warm" disconnect (or similar) solution as of September 28, 2005, or a detailed explanation of why it is not feasible for the provider to use a "soft" or "warm" disconnect solution, as described above.**

LineSider will as of 12:01 am on September 29, 2005 employ a "soft/warm" disconnect that will allow LineSider to curtail all non-911 service to those subscribers that have failed to provide LineSider with an affirmative acknowledgment by the deadline. LineSider is still considering whether the non-911 traffic will be routed to a customer support operator or to a recorded message providing further details to the subscriber.
