UNITED STATES CELLULAR CORPORATION
QUARTERLY E911 IMPLEMENTATION REPORT

United States Cellular Corporation ("USCC"), by its undersigned attorneys, hereby submits its thirteenth quarterly E911 implementation report pursuant to the Commission's order staying certain E911 phase II deadlines for many non-nationwide wireless carriers.[1]

I. Introduction

USCC is a Tier II carrier under the *Order to Stay* issued by the Commission in 2002.[2] As a wireless carrier with systems serving many small and rural markets, USCC faces particular challenges in upgrading its technology and interacting with a wide variety of PSAPs across its service area. To meet these challenges, USCC has dedicated substantial financial and personnel resources to accelerate the deployment of E911 service throughout its service area. USCC personnel maintain regular communication with PSAPs that are at varying levels

[1] *See Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems, Phase II Compliance Deadlines for Non-Nationwide CMRS Carriers*, Order to Stay, 17 FCC Rcd. 14841 (2002) ("*Order to Stay*").

of readiness in the provision of E911 service. In addition, USCC closely monitors its E911 vendors to facilitate E911 deployment to all requesting PSAPs.

In 2004, USCC completed an ambitious, four-year, multimillion dollar project that ultimately converted all of its TDMA markets to CDMA, an upgrade that enabled it to deploy a phase II compliant handset solution in cooperation with upgraded PSAPs that requested the service. USCC is proud that the cooperative phase II deployment effort it utilized during its CDMA conversion effectively became the standard utilized by the FCC in considering the phase II waiver requests filed by Tier III carriers proposing a conversion from TDMA to CDMA.[3]

USCC continues to make great progress toward the provision of E911 service throughout its service area over the last several months. USCC has successfully deployed phase I and phase II service to its newest markets in Illinois and Missouri. In addition, USCC maintains its proactive relationships with PSAPs in its service area to ensure prompt roll-outs once the PSAPs are upgraded to receive and utilize either phase I and/or phase II E911 information.

II. Status of Phase I Requests

USCC and its E911 vendor, TeleCommunication Systems, Inc. ("TCS"), actively work with all requesting PSAPs to deploy phase I E911 service throughout USCC's service area. In numerous cases, USCC has proceeded with deployment despite the fact that a

[2] *Id.* ¶ 23.

[3] *See Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems; E911 Phase II Compliance Deadlines for Tier III Carriers Order*, 20 FCC Rcd. 7709 at ¶¶ 12-14, 16-17, 28-31 (2005).

particular PSAP request does not amount to a valid request for service under the Commission's rules, including in some markets where the PSAP made only an oral request. In addition, in USCC's newly-acquired markets, USCC has proceeded with phase I or phase II roll-out to the entire market despite the fact that in some cases USCC received no formal request from a particular PSAP within that market.

To date, USCC has received 856 requests for phase I service. USCC has successfully deployed phase I service to 820 PSAPs, representing a phase I deployment rate of approximately 96 percent. Of the remaining 36 outstanding phase I requests, 31 have been pending less than six months. Attached as Appendix A is a spreadsheet identifying those PSAPs requesting phase I service and the markets in which USCC has deployed phase I.

USCC has five PSAP requests for phase I service that have been pending for more than six months. In each instance, USCC and the requesting PSAP have entered into an agreement regarding the delay with a new target roll-out date. In all of these cases, phase I deployment has been delayed due to circumstances beyond USCC's control. For example, some PSAPs have encountered delays in converting from a standalone ALI database to the LEC's database, while others have experienced problems with the trunks provided by the LEC to the selective router. USCC maintains regular contact with PSAPs in all of these markets, and is ready to drive test in each market as soon as the PSAP is ready to deploy phase I.

III. Status of Phase II Requests

USCC continues to deploy phase II E911 service as required by the Commission's rules and its *Order to Stay*. To date, USCC has received 517 PSAP requests

for phase II service. USCC has successfully deployed phase II E911 service to 440 PSAPs in its service area, representing deployment to an additional 27 PSAPs in this quarter. USCC currently has 77 outstanding PSAP requests for phase II service, of which 69 have been pending less than six months. The attached spreadsheet identifies those PSAPs requesting phase II service and the markets where USCC has deployed phase II.

USCC has eight phase II requests that have been pending more than six months. In each case, USCC has obtained agreements from the requesting PSAP to postpone the phase II roll-out deadline until 60 days after the PSAP is ready and able to utilize the phase II information. USCC and its vendors have completed all the necessary steps toward phase II deployment in each case and are waiting for the PSAPs to make the necessary corrections to and/or upgrade their systems. For example, one PSAP in Virginia has experienced delays as a result of the installation of new mapping software. Another PSAP in Wisconsin has experienced delays as a result of LEC issues involving the selective router and software upgrades. Other PSAPs do not have the proper equipment to receive and utilize phase II information.

In CDMA jurisdictions where new phase II requests have been received, USCC continues the process of installing necessary software loads on its switches to provide phase II service and upgrading all of the trunking between these switches and the Mobile Positioning Center of its E911 vendor, TCS. USCC and TCS continually integrate the CDMA switches serving these new phase II markets with the TCS equipment and the phase II software. USCC also contracts for the provision of monthly updates to the Base Station Almanacs ("BSA") for all of its cell sites serving CDMA markets where it has received a phase II request. The BSA improves the accuracy of location information provided to PSAPs.

USCC continues to work with Marconi Corporation to do the necessary calibration, accuracy and drive testing to ensure that USCC's phase II service meets the Commission's accuracy requirements. Marconi has conducted testing on USCC's CDMA switches that are serving PSAPs with live phase II deployments. These tests have been conducted using the CDMA location-capable mobile phones currently available to USCC's customers. Marconi's accuracy test results confirm that USCC is meeting the Commission's requirement that 67 percent of the calls are accurate to within 50 meters and 95 percent of the calls are accurate to within 150 meters.[4] Marconi performs a complete accuracy test every six months on each USCC switch with deployed phase II service.

IV. Status of Handset Deployment

USCC is 99.9 percent compliant with the Commission's May 31, 2004 deployment benchmark that 100 percent of new activations be GPS-enabled handsets.[5] In its ongoing efforts to increase penetration rates of GPS-enabled phones, USCC pulled back all non-E911 enabled phones still in inventory at all of its retail locations in CDMA markets as of May 2004.

Since the beginning of 2004, USCC has been actively monitoring its sales of GPS-enabled phones in an effort to achieve compliance with the December 31, 2005 benchmark that 95 percent of all its handsets in use be phase II-compliant.[6] As part of this effort, USCC has increased the frequency of its deeply discounted handset offers to more and more of its existing customers, including repeated offers of free handsets after mail-in rebates

[4] 47 C.F.R. § 20.18(h).

[5] *See Order to Stay* ¶ 27.

to many customers who would not ordinarily have received these offers previously. USCC also has increased its marketing efforts to larger segments of its customer base advertising the availability of these deeply discounted handset offers to encourage its customers to upgrade their handsets to GPS-enabled phones with newer technology, more features and improved functionality.

As of September 30, 2005, USCC had collected detailed information about the handsets utilized by approximately 86 percent of its customers. Of these customers, 94 percent were using GPS-enabled handsets. USCC expects this percentage to reach the 95 percent benchmark on or before December 31, 2005. USCC has very little information about the handsets utilized by approximately 14 percent of its customers including, most importantly, whether the handsets in use are GPS-compliant. USCC expects the number of customers in this category to decrease as the company continues its deeply discounted handset offers and advertises the availability of these offers to its existing customer base.

Currently, USCC has 19 GPS-enabled handsets available for sale in its CDMA markets: Audiovox 8410, Audiovox 8910, Audiovox 8900, Kyocera KE-440, Kyocera SE-44, Kyocera KX1, Kyocera KX2, Kyocera KE434, Kyocera KX-414e, Kyocera 7135, LG UX 4750, LG VX 6100, LG VX 6000, Motorola C343a, Motorola V262, Motorola V265, Motorola V710, Nokia 6019i, and Nokia 6585. USCC no longer places any purchase orders for non-E911 capable CDMA handsets nor does it restock non-E911 capable CDMA handsets sold at USCC's retail locations.

[6] 47 C.F.R. § 20.18(g)((1)(v).

V. Conclusion

As demonstrated above, USCC continues to make significant progress in deploying E911 phase I and phase II service throughout its service area. The commitment of significant financial and personnel resources has enabled USCC to move closer to its goal of meeting or exceeding the Commission's implementation deadlines for E911 deployment.

Respectfully submitted,

To Ensure Compatibility with	)	
Enhanced 911 Emergency Calling Systems	)	
	)	
	)	

AFFIDAVIT OF JAMES JENKINS

I, James Jenkins, hereby declare as follows:

1. I am Vice President, Legal and External Affairs, for United States Cellular Corporation ("USCC"). In this capacity, I am familiar with USCC's E911 deployment efforts.

2. I have reviewed the foregoing USCC Quarterly E911 Implementation Report and believe that the facts contained therein are true and accurate.

I declare under penalty of perjury that the foregoing is true and correct, to the best of my knowledge and belief.

Dated this 1st day of November, 2005.

James Jenkins

CERTIFICATE OF SERVICE

I, Jennifer Tatel, do hereby certify that on this 1st day of November 2005, copies of the foregoing "United States Cellular Corporation Quarterly E911 Implementation Report" were served by U.S. first-class mail, postage prepaid, to the following:
