

These are my reply comments for FCC "Morse code" Notice of Proposed Rule Making and Order WT Docket 05-235. All the posts to date show NO reason to require any morse code testing for any class of license. I am still in total support of the FCC proposal to drop morse code testing for ALL license classes. I all so urge the FCC to get this done ASAP. Please don't wait another year to do what needs to be done now. Drop morse code testing and let morse code live or die on it's own. If morse code is used as much as a few say it is it will live on with or with out the morse code test for HF privileges.
