Re: IB Docket No. 05-290, Consolidated Application for Authority to Transfer Control of PanAmSat Licensee Corp. and PanAmSat H-2 Licensee Corp. to Intelsat Holdings, Ltd.

Dear Ms. Dortch,

SmartJog submits this letter in support of the application for authority to transfer control of PanAmSat's licenses to Intelsat.

SmartJog, a France-based company with a Los Angeles office, provides digital delivery of entertainment content worldwide through its secure private network and a broadband satellite network. SmartJog delivers entertainment content between television distributors and their international clients and between movie studios and post production facilities. SmartJog provides services for all major motion picture studios and over 300 international television networks, television distribution companies and post production facilities worldwide. SmartJog contracts with Intelsat to provide these services to its customers.

SmartJog's major selling points to its customers are the speed and security of its service. Therefore, the reliability of its communications network is paramount. The proposed merger of Intelsat and PanAmSat would provide greater redundancy in the satellite network and make back-up capacity more readily available to SmartJog in the event of a satellite malfunction. Additionally, greater reliability will enhance SmartJog's ability to market its services to television studios, increasing distribution of television programming worldwide and thereby furthering competition. Because the proposed merger would benefit SmartJog and its customers who rely on the satellite network, SmartJog encourages the Commission to grant Intelsat's and PanAmSat's consolidated application for transfer of control.

Sincerely,

Julien Seligmann
