**Re: Mobile Satellite Ventures LP  
Ex Parte Presentation  
WT Docket No. 05-157**

---

Dear Ms. Dortch:

On June 22, 2005, Mobile Satellite Ventures LP ("MSV") submitted a White Paper in the above-captioned proceeding entitled "Taking a Fresh Look at Public Safety's Spectrum Needs: Toward a Next-Generation Strategy for Public Safety Communications."<sup>1</sup> MSV hereby submits an updated version of this White Paper entitled "Toward a Next Generation Strategy: Learning from Katrina and Taking Advantage of New Technologies." The paper examines how current public safety communications systems failed to operate effectively during Hurricane Katrina and how next-generation hybrid satellite and terrestrial systems will play a critical role in providing public safety agencies with an effective means of communications before, during, and after disasters.

Please direct any questions regarding this matter to the undersigned.

Very truly yours,

/s/Jennifer A. Manner
