

Lets all Remember... This is not a vote... The decision has been made to elimnate morse code... It only seeks comments... and my opinion is that morse code should have never been a requirement. I had to learn and pass it, and for what.. nothing... I will never use it again... After 21 years in the military I could die for my country, but could not use the HF frequencies for my hobby, or so called service... Want to really provide a service join a MARS... If anyone doesn't like the way HAM radio is anymore... just find another hobby...
