**Re: Consolidated Application for Authority to Transfer Control of PanAmSat Licensee Corp. and PanAmSat H-2 Licensee Corp. to Intelsat Holdings, Ltd., IB Docket No. 05-290**

Dear Ms. Dortch:

Pittsburgh International Telecommunications ("PIT") supports the granting of Intelsat Holdings, Ltd.'s ("Intelsat") and PanAmSat Corporation's ("PanAmSat") request to transfer control of certain of PanAmSat's licenses.

PIT offers end-to-end solutions encompassing the design, deployment, and secure management of Satellite Private Networks for corporate/government entities and Direct-to-Home broadcast platforms for ethnic programmers. As part of this offering, PIT provides earth station services and brokers satellite capacity on several satellites.

PIT believes the merger of Intelsat and PanAmSat will provide video customers with increased reliability due to improved redundancy and back-up capabilities. Currently, these providers are limited in the amount of protected capacity they may offer to customers. Accordingly, PIT and its customers (especially smaller content providers, such as ethnic programmers) are often not able to acquire such fully-protected capacity. The merger, however, should greatly increase the likelihood PIT and its customers will be able to access additional capacity in the event of a catastrophic in-orbit satellite failure. PIT therefore asks the Commission to grant the application by Intelsat and PanAmSat for transfer of control.

Sincerely,

Albert M Stem  
President  
Pittsburgh International Telecommunications, Inc.
