

Please have all TV shows in captions and including All late night shows and news. I am a day and late night TV watcher. Many times I find some weather stations, Fox, CNN and other late night shows with no open or closed captioning available late night and sometimes none during the day. ESPECIALLY -- tnt, amc and other basic local channels. PLUS I PAY FOR THE CABLE SERVICE -- but not get the captioning service. I pay \$58.66 a month (increased this month) for basic local and standard TimeWarner Cable service. I expect to have the same service access as the public. No one monitors the captioning services for the deaf and hearing-impaired, except FCC-- Thank you! FCC!!
