

Thank you for your interest in helping the Deaf community. It is THEIR right to be able to receive information just as we hearing do in every broadcast. Millions of dollars are paid for actors per episode, some of this money should be challenged for the Deaf. It is in saying that in our world people still go hungry, have no place to live, yet will think nothing to pay \$100 to watch a football game. I don't get it! My parents have enjoyed closed-captioning since its inception, unfortunately, from 1955-1979, they were clueless. Please help the Deaf community, please.

Most sincerely,

Joyce Clapham,
Teacher of the Deaf, MA & Interpreter of the Deaf, CSC
