

Hi.. I am filing comments on the really bad quality of captioning that has been appearing on TV lately. For example... on ABC's nightline, the quality is shoddy at best. Is anyone at ABC checking this?

The captioning@ that@ appears@ on@ TV@ is@ extremely@ poor@and@ it@ makes@ it@ difficult@ to@ understand@ what@ is@ being@ said@. Just@ the@ other@ night@, it@ was@ very@ frustrating@ to @ watch@ this@ show@ because@ the@ @ symbol@ showed@ up@ at@ the@ end@ of@ every@ word@.

Surely someone must take responsibility for this lousy captioning. This is just the tip of the iceberg!! The quality has steadily declined and it's getting worse!!

PLEASE, I beg you (once again the deaf and hard of hearing community must beg!)please, implement standards for quality captioning! the quality today is unacceptable! SHAME on the television industry!
