Dear FCC:

I am appealing SLD Denial Decision on Appeal for funding request number 1095021

Cognizant that the FCC commonly does not overturn an SLD Decision on Appeal, I still contend that the form 486 was filed on time electronically using ID Oldham and PIN 6892. However, unfamiliar with filing on-line, I was unsure the certification went through. Although the form was annotated and listed by me I did not remember that the form had been filed electronically. All I had to go by when notified by the SLD that form 486 was never received was the printed copy of the form with the on-line certification form which does not show the PIN number when printed from the website. The PIN number is the certification so the fact that the copy of the form was not signed is not relevant to the SLD's decision.

My office manager believes that the paper copy of form 486 was mailed on August 13, 2004. On later query, my employee does not remember if she sent the form by certified mail or not. I admit that our offices were moved and I admit that I assumed that the "return receipt" may have been lost but I did complete the form on August 13, 2004. Although it appears that I am making up excuses, I assure you that ignorance of the procedures on my part is not cause to deny the Oldham County Public Library its small share of funding. I have always striven to comply with SLD requirements and deadlines.

I am hoping that you will issue an extension so that I can re-send Form 486 and receive our disbursement of \$10,056 which was approved as submitted on our funding commitment report for year 04/05 which I received 05/03/04. It is difficult at best to comprehend the filing forms and deadlines for the E-rate Funding which is not an excuse for the stupidity on my part or the failure to follow through on the part of the office manager.

Thank you,

M. Susan Eubank
Oldham County Public Library
