

I do agree with the major E-Rate reforms recommended by the American Library Association. I am the library director in a small library.

Since there is a small staff, I do many different things to run the library. The E-rate Forms are time-consuming and repetitive.

Elimination of three forms (Form 470, 472, and 486) would indeed speed the E-rate process. Just using one form (Form 471) would be a more efficient method for FCC and applicants.
