

I have no problems with my cable TV. Now you are trying to control digital Television now. I have right to watch anything on my T.V. and you should teach parents about the V-Chip in the digital Television box. Why are attacking me I have not done any wrong to anybody but I feel that you and right wing of republican party are attacking my rights to watch cable T.V. that I pay for with my money. I feel that you are listen to a small voice of people or a right wing group to control what I watch of T.V. and it is just so wrong on so many levels. If my rights are being attacked then I will take action to protect my rights because I pay for digital Television and I just not have to pay more to keep my services or have suffered because of a group of lazy parents that do not teach their kids with is safe on to watch on T.V. or used the V-Chip.
