Subject: Re: Federal-State Joint Board on Universal Service CC Docket 96-45

Dear Senator Domenici:

I have serious concerns regarding the Federal Communications Commissions' (FCC) position to change the Universal Service Fund (USF) collection method to a monthly flat fee. Many of your constituents, including me, my friends, family and neighbors, will be negatively impacted by the unfair change proposed by the FCC.

As you know, USF is currently collected on a revenue basis. People who use more pay more into the system. If the FCC changes that system to a flat fee, that means that someone who uses one thousand minutes a month of long distance, pays the same amount into the fund as someone who uses zero minutes of long distance a month. Constituents who use their limited resources wisely should not be penalized for doing so.

A flat fee tax could cause many low-volume long distance users, like students, prepaid wireless users, senior citizens and low-income residential and rural consumers, to give up their phones due to unaffordable monthly increases on their bills. Shifting the funding burden of the USF from high volume to low-volume users is radical and unnecessary. In addition, it would have a highly detrimental effect on small businesses all across America.

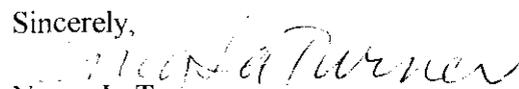

The Keep USF Fair Coalition, of which I am a member, keeps me informed about the USF issue with monthly newsletters and up to date information on their website, including links to FCC information. While I am aware that federal law does not require companies to recover, or "pass along" these fees to their customers, the reality is that they do. As a consumer I would like ensure I am charged fairly. If the FCC goes to a numbers taxed, my service will cost more. And according to the Coalition's recent meetings with top FCC officials, the FCC has plans to change to a flat fee system soon and without legislation.

I will continue to monitor developments on the issue and continue to spread the word to my community. I request you pass along my concerns to the FCC on my behalf, letting them know how a flat fee tax could disproportionately affect those in your constituency.

Subject: Re: Federal-State Joint Board on Universal Service CC Docket 96-45

Dear Senator Clinton:

The Federal Communications Commissions' (FCC) continues to astound me as to how out of touch they are with the best interests of the majority of Americans. The FCC's position to change the Universal Service Fund (USF) collection method to a monthly flat fee is incredibly unfair. Many of your constituents, including me, my friends, family and neighbors, will be severely impacted by the change proposed by the FCC.

As you know, USF is currently collected on a revenue basis. People who use more pay more into the system, which is only fair. If the FCC changes that system to a flat fee, that means that someone who uses one thousand minutes a month of long distance, pays the same amount into the fund as someone who uses zero minutes of long distance a month. Constituents who use their limited resources wisely should not be penalized for doing so.

A flat fee tax could cause many low-volume long distance users, like students, prepaid wireless users, senior citizens and low-income residential and rural consumers, to give up their phones due to unaffordable monthly increases on their bills. Shifting the funding burden of the USF from high volume to low-volume users is radical and unnecessary. In addition, it would have a highly detrimental effect on small businesses all across America.

The Keep USF Fair Coalition, of which I am a member, keeps me informed about the USF issue with monthly newsletters and up to date information on their website, including links to FCC information. While I am aware that federal law does not require companies to recover, or "pass along" these fees to their customers, the reality is that they do. Dear The Federal Communications Commission:

The flat-fee Universal Service Fund proposal is unfair. I urge you to oppose this plan. I am one of the millions of consumers that will be unfairly taxed at a higher rate under the flat fee plan. The flat-fee would mean a tax hike for people like me -- consumers that use prepaid cellular phones or make few long distance calls.

I support the Keep USF Fair Coalition, and monitor this issue on their website. Stopping the flat fee tax is important to my family - not to mention my pocket book. You will hear from me again, until this issue is resolved fairly! The flat-fee is unfair, and un-American.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as high-volume residential or business customers. I urge you to reject this flat-fee proposal. Thank you.
